I still remember this clearly...but I can't remember before that.... what could I say.....

Semi-transparent? I do remember it exist but I don't remember this for sure

Where does your memory begin?

But the other problem is that I don't know what I don't remember for sure....

I just remember that the memory after TV series is a lot different than before that....

My first memory is too clear for the first memory.....

Let me see..... when I was 5th grade....

Our principal was really stern...

you know,they gave you milk with lunch,she always checked after lunch if student have drank all the milk and whacked as if we didn't.....

.....

A girl in our class didn't drink her milk and put it in her bag .....

But there was News about that principal is checking student bag.

But the milk was for her flower.It was summer and the milk got rotten fast.

At that afternoon,I had was really sick and I went to hospital in a ambulance.It was my worst memory...
